

ABSTRACT

Bizchain is a secure platform that verifies businesses and business owners, preventing fraudulent companies, impersonation, and fake accounts. It ensures trust in online and physical transactions and provides verified business profiles for safer interactions.

PROBLEM STATEMENT

- Rising business activities in Malaysia lead to risks for consumers.
- Customers struggle to verify if businesses are legitimate.
- Fraudulent businesses, impersonation and fake accounts lead to trust issues and potential losses.

OBJECTIVES

- Establish a secure and trustworthy platform for consumers and businesses.
- Provide transparent access to verified business profiles, ratings and reviews.
- Prevent and address fraudulent activities through structured reporting mechanisms.

WHAT IS BIZCHAIN

- Connects verified businesses with customers securely.
- Ensures only legitimate Malaysian citizens and registered businesses participate.
- Provides comprehensive business transparency via verified business profiles and enables accountability through a customer feedback and reporting mechanisms.
- Users can report suspicious or fraudulent businesses; flagged businesses are highlighted.
- Supports online and physical businesses
- Integrates the CIA Triad by protecting sensitive data, validating business authenticity, and ensuring continuous access to reports.
